BCH-601

B. COM. (H) (SIXTH SEMESTER)

END SEMESTER

EXAMINATION, June, 2023

PROJECT MANAGEMENT

Time : Three Hours

Maximum Marks : 100

Note : (i) All questions are compulsory.

(ii) Answer any *two* sub-questions among

(a), (b) and (c) in each main question.

(iii) Total marks in each main question are
twenty.

(iv) Each sub-question carries 10 marks.

1. (a) Define project management while explaining its need in industry. Explain how we perform Agile project management and Waterfall project management.

P. T. O.

(2)

BCH-601

- (b) If a project requires an investment of ₹ 20,00,000 at the start in lumpsum and will be giving the below cash inflow at the end for the next 3 years. Conclude whether the project can be considered as an investment opportunity or not, if the targeted rate of return by the organization is 12% p.a.

Year 1 – ₹ 10,00,000

Year 2 – ₹ 10,00,000

Year 3 – ₹ 11,00,000

- (c) What are the various techniques used for determining a worthwhile investment opportunity ? Explain any one of the techniques through a practical example.

(CO1)

2. (a) Define financial analysis. Explain the concepts of corporate financial analysis and investment financial analysis with the help of illustrative examples. (CO2)

(3)

BCH-601

- (b) Write a detailed note about conducting a techno analysis of the manufacturing unit.

(CO2)

- (c) Assume Company XYZ must decide whether to purchase a piece of factory equipment for \$200,000. The equipment would only last three years, but it is expected to generate \$95,000 of additional annual profit during those years. Company XYZ is also thinking of selling equipment for scrap during the fourth year for about \$20,000. Using IRR, determine whether the equipment purchase is a better use of its cash than its other investment options, which will be returning about 10% ?

(CO2)

3. (a) What do we understand by forecasting project cash flows ? Mention the various basic principles of cash flow estimation and write a note about any *two* of them.

(CO3)

P. T. O.

(4).

BCH-601

(b) ABC enterprises is considering a capital project about which the following information is available : (CO3)

(i) Investment outlay will be ₹ 100 crores. Out of which ₹ 70 crores will be on plant and machinery and the balance will be on working capital. All the investment will occur at the start of the project.

(ii) The revenues of the firm every year will be ₹ 100 crores and the expected costs per year will be ₹ 60 crores. The above cost excludes depreciation, interest, and taxes.

(iii) Effective tax rate will be 30%.

(iv) The project life will be 5 years and at the end of 5 years, fixed assets will fetch a salvage value of ₹ 20 crores.

(5)

BCH-601

(v) Plant & machinery will depreciate by 10% on the basis of WDV method.

On the basis of above given information, calculate the cash flows of the project

(c) What do we understand by WACC ? Why is it important to calculate it while performing project analysis ? Explain in detail with a practical example. (CO3)

4. (a) What do we understand by the concept of risk ? Define project risk analysis and explain why it is important to perform the same. (CO4)

(b) What are the various techniques of project risk analysis ? Show with the help of a flow chart.

Explain the concept of Sensitivity Analysis and Scenario Analysis. (CO4)

P. T. O.
